Aakash Dalal

Frontend Developer

aakashdalalportfolio 🕥 github.com/aakashdalal 🛅 linkedin.com/aakashdalal

Summary

Frontend Developer with hands-on experience through personal projects in building responsive, user-friendly websites using HTML, CSS, JavaScript, Tailwind CSS, and React.js. Passionate about writing clean and reusable code, with a strong focus on UI/UX. A quick learner and team player with a problem-solving mindset, eager to contribute to impactful projects in a growth-oriented tech environment.

Skills

Styling & UI Programming Language:

HTML5, CSS3, Tailwind CSS JavaScript (ES6+)

Frameworks & Libraries Soft Skills

React.js, Redux, React Router Problem-solving, Teamwork, Communication

Education

MBA - Information Technology, Maharshi Dayanand University 2024

BCA - Computer Applications, *Maharshi Dayanand University* 2022

Projects

Item Management App ☑ 06/2025 – 06/2025

05/2025 - 05/2025

A React app to add, view, and manage items with images. Features include a form to add items, a dynamic view page, image carousel, and an enquiry button that sends an email using EmailJS. Data is saved with local storage.

Perpenny, *Travel Agency* □

Created a dark-themed, responsive homepage UI for a fictional travel agency as part of a selection assignment from Perpenny. Designed to closely simulate a real-world travel site using only frontend technologies.

Credex, SoftSell ☑

05/2025 - 05/2025

Built a responsive, single-page marketing website as part of a web development internship assignment from Credex. The project showcases a fictional software resale startup named "SoftSell", focusing on clean UI, responsive design, and modern frontend development practices.

Spotify Clone 🗗

04/2025 - 04/2025

Recreated Spotify's web UI with functional play/pause buttons, playlist layout, and responsive navigation.

Twitter/X Clone ☑

04/2025 - 04/2025

Built a UI replica of Twitter with home feed layout, sidebar navigation, and responsive design. Focused on clean component styling using Tailwind CSS.

TO-DO App 🛮

04/2025 - 04/2025

A beginner-friendly Todo App. It helped me learn key React concepts like state management, event handling, and component structure. The app also uses LocalStorage to save tasks, so everything stays even after a page refresh.

Certifications

Diploma in Software Engineering, NIIT
